

Name _____

Weekly Math Challenge

Mary's phone company charges 25¢ a minute for the first minute of each phone call and 20¢ a minute for each minute after that. Mary made 3 phone calls one day. She talked for 6 minutes the first time, 2 minutes the second time, and 15 minutes on the third call. How much was her phone bill for that day?

Show how you used a picture, chart, or symbols to help you find the answer.

Answer: _____

Write several sentences explaining how you found your answer:

Parent Signature: _____
