

Go For Green Stoplight Management System

How the Stoplight System Works

The Stoplight System takes the chaos out of the classroom! To create this display, staple a stoplight pattern to a large bulletin board, and add a numbered library card pocket for each student. Insert a green "tag," or slip of paper in each students' pocket, and place yellow, orange, and red tags in extra pockets near the base of the stoplight. Students start each day "on green." When a student engages in an off-task behavior, place a yellow tag in his or her assigned pocket as a caution. If additional incidents occur, place an orange, and then a red tag, in the pocket. Follow up with a specific consequences according to your management plan. At the end of the day, record the stoplight color changes, and then replace the yellow, red, and orange tags. You can find the complete directions, patterns, and classroom management forms in my *Go for Green Stoplight System*. Click the image on the right to find it in my TpT store! ~ Laura Candler
