

Winter Dictionary Word Sort

Number of Players: 2

Materials: Entry Word Cards
Word Sorting Answer Key
Winter Word Sort Gameboard

Directions:

1. Cut apart both sets of entry word cards and make sure they don't get mixed together. The Fireplace-Icicles words go together for one game, and the Skating-Snowball words are for another game.
2. Start with the Fireplace-Icicle set. Put the guide word strip at the top of the game board. Shuffle the nine entry word cards and place them face down in the left box. Place the Answer Key face down next to the board.
3. To see who goes first, players draw a word card from the deck. The person with the longest word becomes Player 1. Put the cards back on the bottom of the deck.
4. Player 1 turns one word card face up and thinks about where it would be in a dictionary according to the guide words at the top. Would it come before that page, on that page, or after that page? He or she places the card on the appropriate section of the board.
5. Player 2 gives a thumbs up to show agreement or helps Player 1 figure out the correct placement.
6. Player 2 turns over the next card and places it on the board. Player 1 gives a thumbs up or helps Player 2.
7. Continue to take turns sorting the cards.
8. Check the answer key after all cards are placed.
9. Repeat the activity again with the other set of entry word cards.
