

ABC'S OF ME

Created by Laura Candler

The ABC's of Me is a mini ABC booklet that students can complete at the beginning of the year or any time as a "getting to know you" activity.

To create a booklet, you'll need two sheets of paper for each student and the four patterns in this packet. Duplicate the four pages front to back, pairing them as shown on the right. Place the two sheets of paper together, fold them in half, and check to see if they are in the correct order. Then staple them together along the fold using a long reach stapler if possible. Give one booklet to each student and ask them to decorate the cover with pictures of some of their favorite things. Provide time for them to complete the sentence prompts with information about themselves. Each page has one empty frame which students can use to draw an illustration of something related to the sentences on that page. Be sure to allow class time for sharing the booklets, or place them in a literacy center where students can read them later.

This ABC Booklet is also available for free as a blank template for creating your own projects. Look for it in my TpT store or on the Teaching Resources site below.
