

# Hangman

## Description:

This game is for two players. One player must guess the other player's mystery word letter by letter. For each letter missed, one body part is drawn on the hangman. The object is to guess the word before being hanged.

## Rules:

1. Find a partner to play with. One person will be the Word Finder and the other will be the Guesser.
2. The Word Finder will choose a word for the other to guess. Check the spelling of the word in the dictionary!
3. The Word Finder should make a line for each letter in the word and should also draw the gallows. (Do this in your Learning Log)
4. The Guesser will guess one letter at a time. If the letter is in the word, the Word Finder will fill in the blanks with the correct guesses.
5. If the letter is not in the word, the Word Finder will draw one body part for each incorrect guess (head, neck, body, each arm, each leg, and each foot).
6. The Guesser may guess the mystery word at any time before the last foot is drawn on the hangman.
7. Switch roles and play again!
